CHAT BOT

CHAT BOT

CHAT BOT

A complex network diagram consisting of numerous small circular nodes connected by thin, curved lines. The nodes are colored in shades of orange and blue. The lines are primarily orange, with some blue lines interspersed. The network is dense and symmetrical, with a central cluster of nodes and lines that tapers outwards. The overall shape is reminiscent of a stylized 'W' or a wide, shallow bowl. The background is a dark, solid color, which makes the glowing nodes and lines stand out prominently.

BIG DATA

COLLABORATIVE INNOVATION

“By working together, a growing number of technology firms are significantly accelerating time-to-market of innovations. **Open source technologies are becoming the norm in our industry (technology).**”

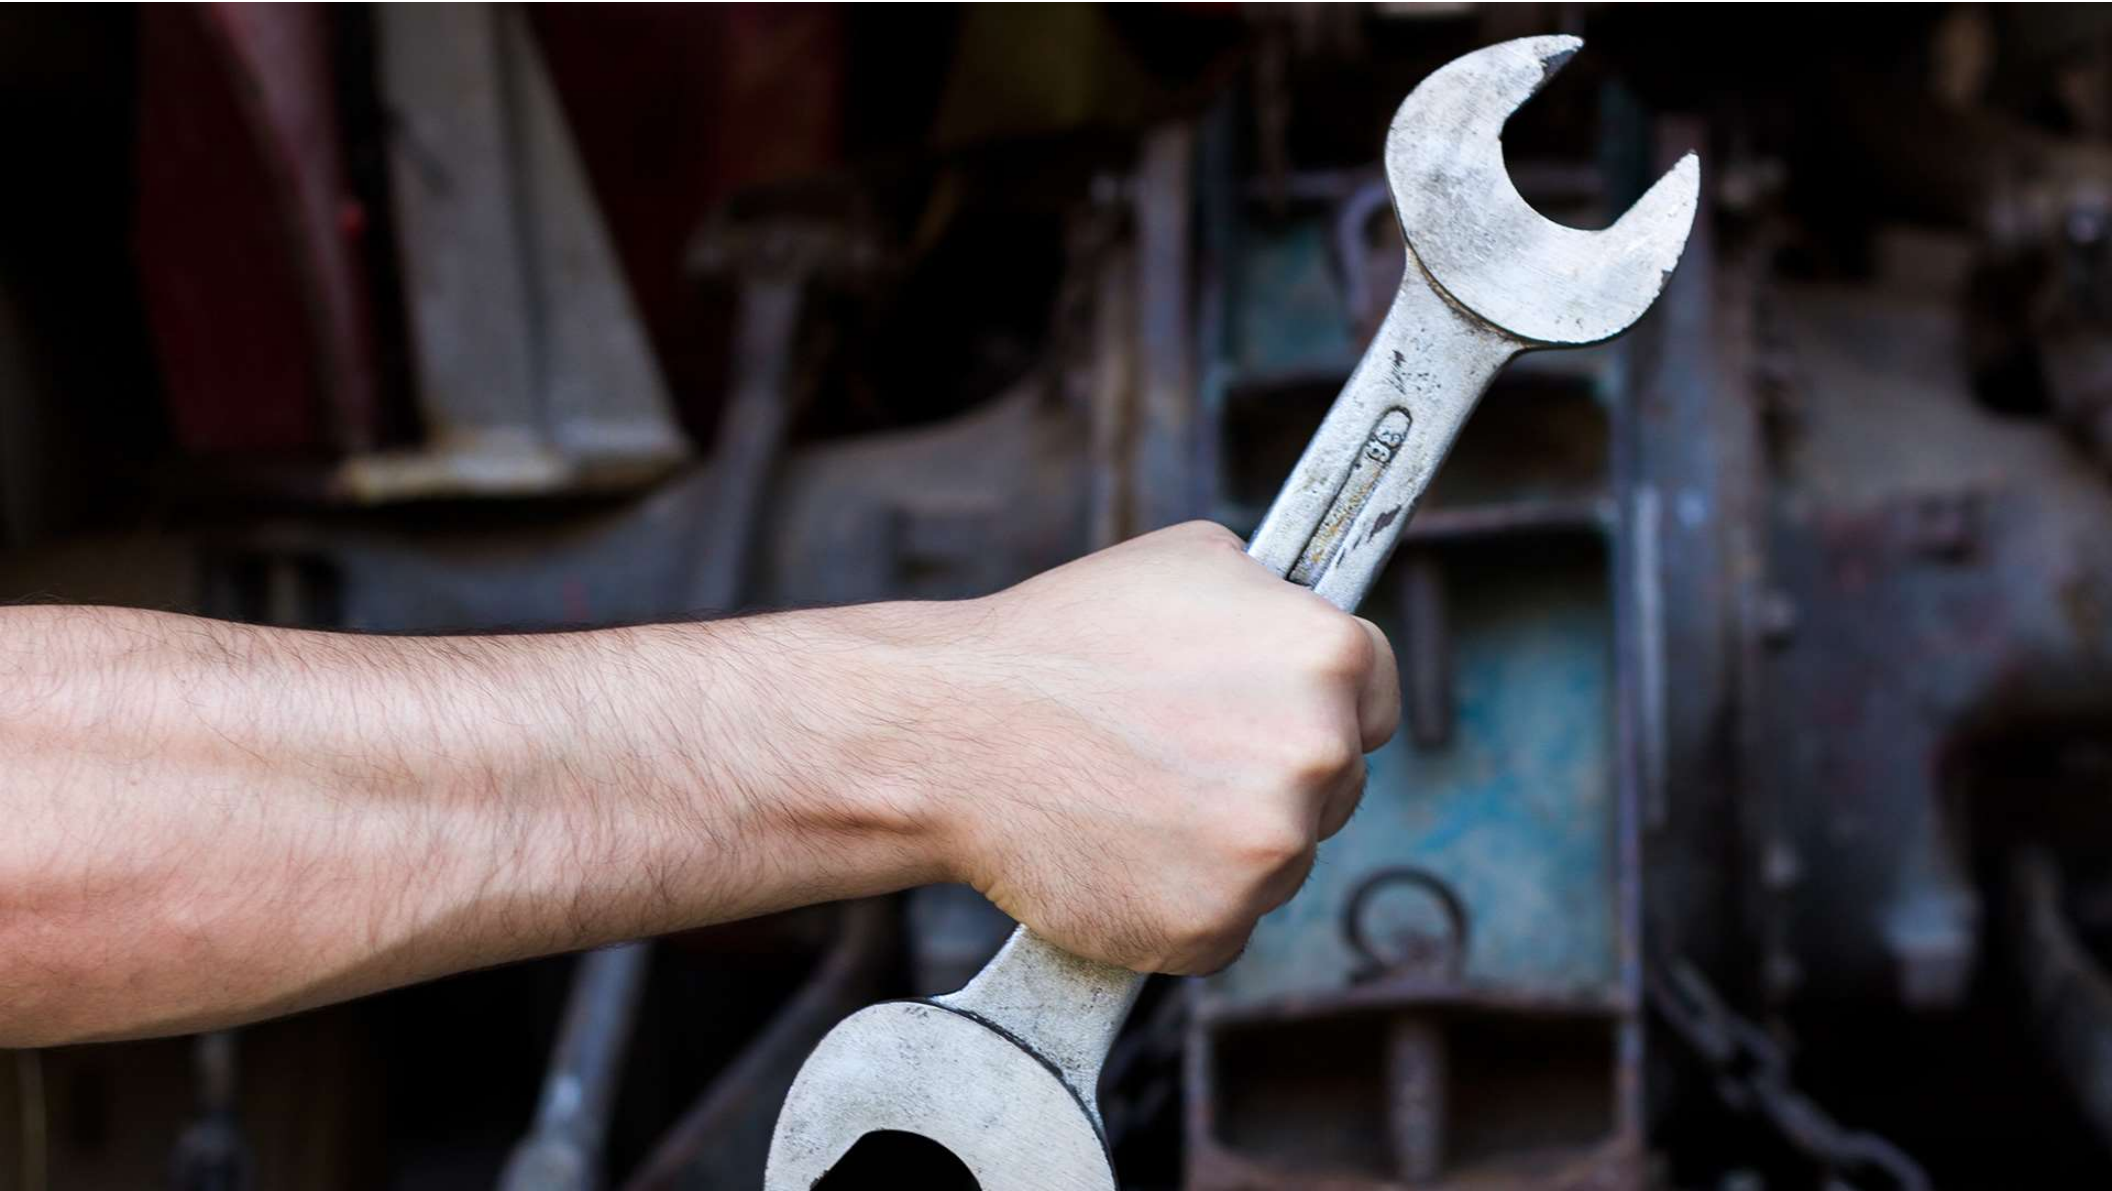

Forbes - Collaborative Innovation Is The Future Of Information Technology
<https://www.forbes.com/sites/ibm/2016/06/22/collaborative-innovation-is-the-future-of-information-technology/#67ffca5c2fa4>

“The future will likely be won by those who don’t wait for light-bulb moments from a single genius, but rather develop highly collaborative win-win relationships that leverage the collective power of many.”

The image shows a web design tool interface. On the left is a sidebar with a 'CMS' section containing a 'Collection List' element. The main workspace displays a dark-themed banner for 'Easter' with the word 'EASTER' in large, gold, textured letters. Below the banner is a 'Rock Solid Church' logo. The top of the interface includes a toolbar with device icons and a 'Publish' button. A 'Elements' panel is open on the left, showing categories like Layout, Basic, Typography, and CMS with various block icons.

Pledge Your Support

Enter your pledge to keep us coding.

The Future Is Up To You

The future of Rock rests in your hands. Lend your support today to launch Rock into the future.

What **You** Need to Know About Rock's Funding Model

Watch this transparent look at how Rock is funded and how your organization is needed to support the future.

Keep Us Coding

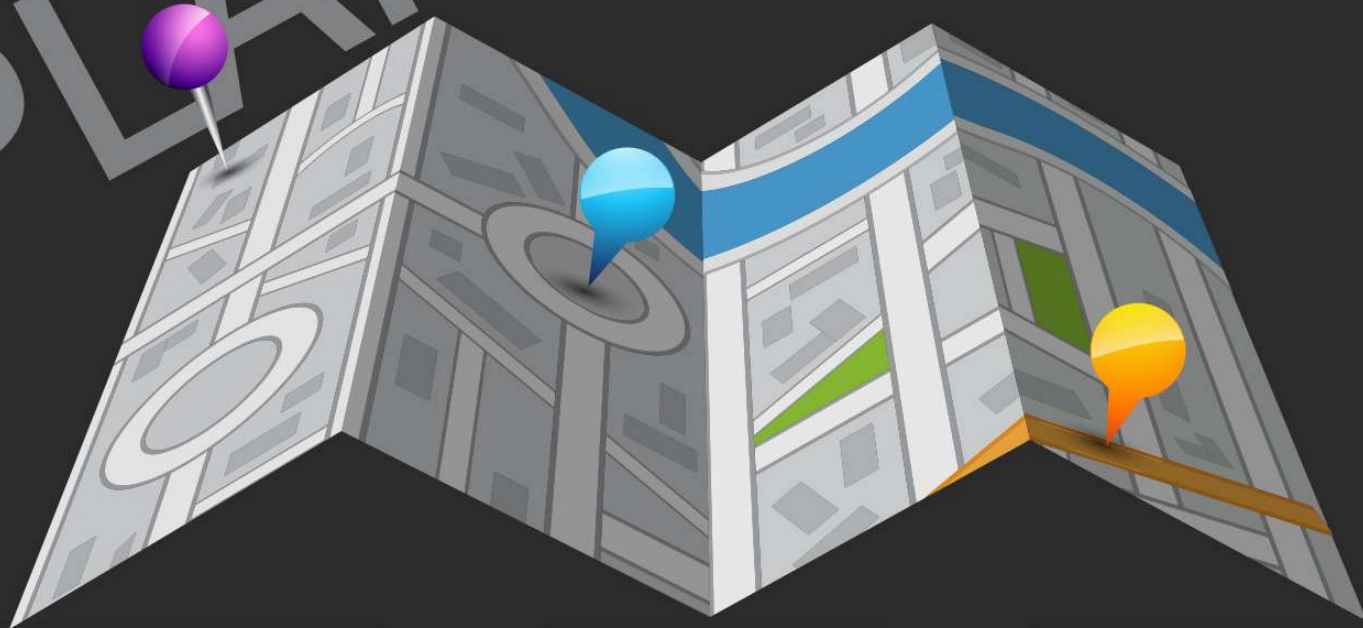

Rock is different. It is built by the 501(c)3 non-profit Spark Development Network and protected by a board made up of many different churches. But it is owned by you.

As an open project, the success of Rock is dependent on your support. Rather than send each Rock church a bill, we've chosen to run as a ministry - making a tight-knit community, innovative technology, and a pivotal support model accessible to all.

So what's a fair donation? And what is generous?

To balance the weight of your organization on the platform, we need a donation of just \$1.50 per average weekly attendee, per year.
