Version 7.0 Scope

202

The number of release note items to **Rock v6.**

This is not the best metric of comparing to other releases.

Rock v7.

This is not the best metric of size, but it helps give perspective.

Enhanced Communications

2017 YTD

“Instead of adapting to our church management system, Rock adapts to us! The flexibility and power of Rock is nearly impossible to find with any other system.”

Morgan Woods
Systems Coordinator
Willamette Christian Church

"For the first time in years, we have a tool that we can customize to track the information that is relevant to our church. We are now able to report real time data, which enables us to serve our church and community better."

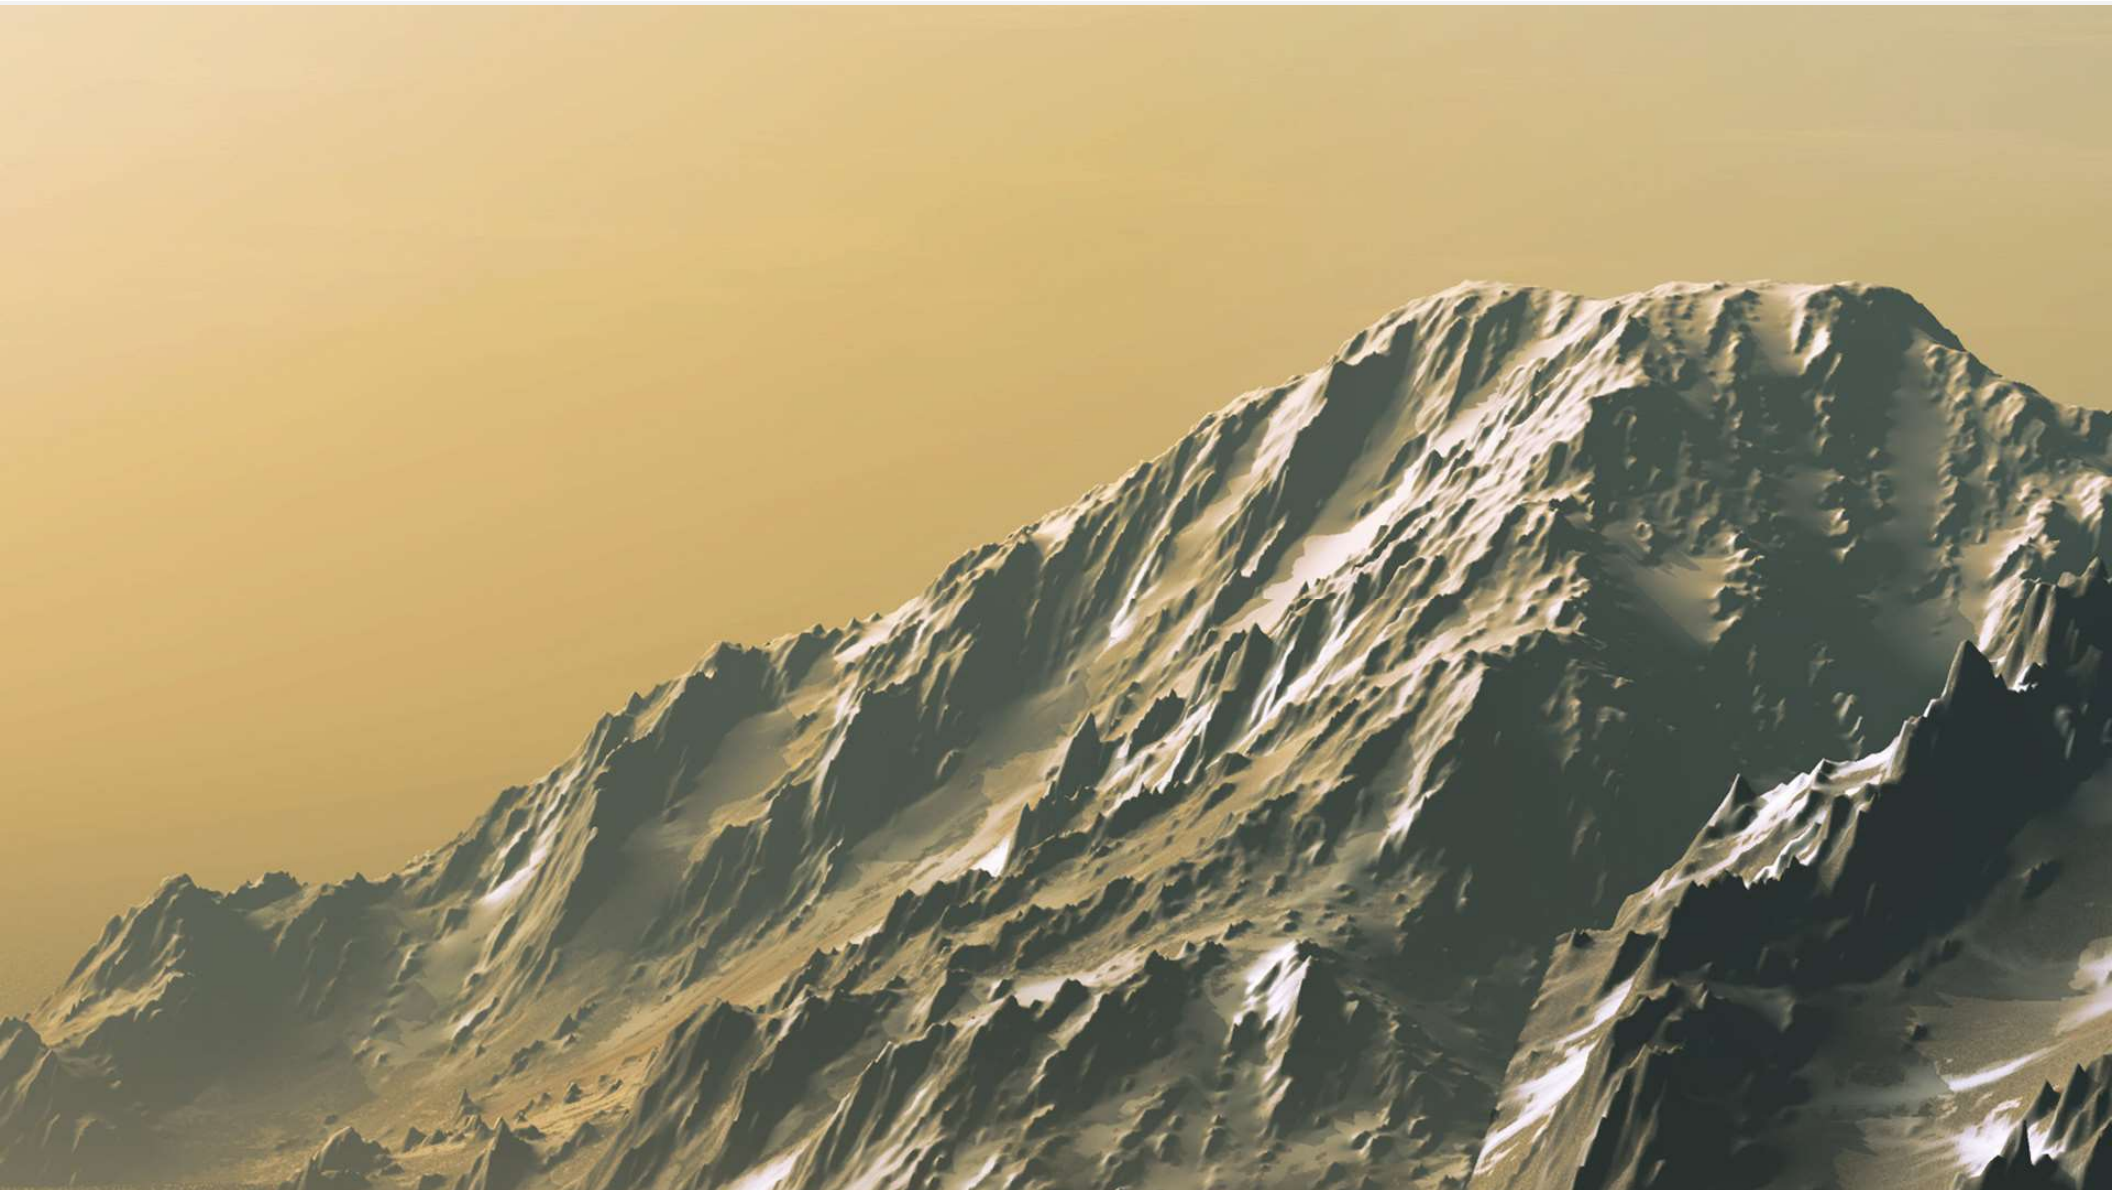
Danielle Vos
Database Integrity Specialist
Christ the King Church

"We're leveraging the data in Rock to customize our website experience to the user. Never, in my 15 years of experience in marketing for the corporate sector, have I worked with a system that could do this well, until now."

Lisa Korrect
Director of Communications
The Crossing

“The first morning of our children’s summer camp has always been chaos. This year, using Rock’s online event registration and check-in, we got 170 kids registered, checked-in, and ready to play in just a half-hour.”

Jessica Soukup
Pinon Hills Community Church



“Great things are done when men and mountains meet.”

William Blake
